Players "playing up" are advised that by doing so, their NTRP year-end rating and those of their opponents may be inappropriately affected. **3. 2.03A(3)b Sections shall have the option to require, for eligibility to progress to championship level competition below SECTION Championships, Self-Rated and Valid Computer Rated Appealed players to play up to four matches, on the same team at the same NTRP level in the same Age Group during its local league season and is otherwise eligible, with no defaults counting. checking Tennislink for final Year-End Ratings, on or around December **each year**.

Additionally, that player becomes ineligible for future play at that level for the remainder of the championship year and the succeeding championship year. Appeals are only considered with a data entry error occurrence. Computer Rated Players are not subject to Dynamic Disqualification.**

• NTRP DQ Notification: DQ Reports are monitored by the Section League Manager daily, Monday through Friday, except holidays. Self-Rated players receiving a Dynamic Disqualification will be notified before their next scheduled match, except in the case of a self-rated player participating in multiple matches on weekends or holidays. Such players should be aware that they may be disqualified upon receiving a “third Strike” at any time, and the possibility of multiple strikes exists when playing multiple matches on weekends or holidays. **(Example: Self-rated player X plays in a league match on Saturday and receives his 3rd strike, not aware of the DQ, he plays again the following day in a Sunday league match. The match on Saturday would be reversed and deemed a win for the opponents. The match on Sunday, would stand as played.)**
